An Intensive, Two-day Workshop for married and unmarried couples to rediscover the joy and spiritual potential of being together while using their relationship for personal change and growth.

This two-day couples workshop is often compared to 3-6 months of weekly couples therapy.

"We have been in therapy for 8 months and going nowhere fast. Thank you for giving us back our future in two days!!" Barbara Persichetti, Lawrence, New Jersey

"The singularly most powerful experience of my life." John E. Claypool, Th.D.

"...the first real and clear path we've all been given to the 'Promised Land' marriage can offer."
Tamera Smith Allred

THE UNCONSCIOUS AGENDA of childhood is to get the nurturing and care from your partner that you did not get as a child. This workshop provides you with the opportunity to learn and practice the skills necessary to bring this unconscious agenda to consciousness. You will deepen and save your relationship as you respond to this unconscious directive to help each other finish childhood .

The core of this theory is that everyone carries an unconscious image (Imago) of their ideal partner that is composed of both the best and worst traits of the people who have been most significant to us from our childhood. Your Imago is your internal map of who you are attracted to, who you attract, and some of the issues you will have together. Understanding your Imago shows you why your unconscious has chosen your partner and why you keep repeating the same conflicts and how to change your destructive, repetitive patterns of relating and live the life you want. You will discover how to use your relationships as "Teacher, Healer and Guide" and that the key to successful relationships is your Attitude and having the Tools that create safety, intimacy and passion. "This is a revolutionary view of relationships: rather than leaving it to find yourself, you find yourself through it...being the right partner is more important than picking the right partner."

THE UNIQUE DESIGN of this workshop is appropriate for you . . .

- ♥ if you want to enrich a good relationship. . .
- ♥ if you are beginning a relationship you want to keep. . .
- ♥ if you are in a difficult relationship and want to resolve long-standing conflicts. . .
- ♥ if you are near breakup or divorce and want to decide if and how the relationship can be changed and saved.

This 20 hour workshop has been designed by Harville Hendrix, Ph.D., and is similar to the one he has been giving for years, based on the theory and exercises described in his best-selling book, *"Getting The Love You Want-A Guide for Couples."* It will include lectures, guided imagery exercises, written exercises, partners' dialogue and communication processes. A systematic workbook will be provided for your use during and after the workshop. Partners share only with each other, and confidentiality is maintained in a safe and comfortable environment.
